

Healthcare 2019

AI DATATHON AND EXPO

The 2nd **NUS-NUHS-MIT Healthcare AI Datathon and Expo** is a focal point to showcase and discuss the application of Artificial Intelligence in clinical practice and its implications in the age of precision medicine. We shall be hosting a number of healthcare AI seminars and workshops during this event, to introduce participants to the skills required for building AI tools.

Starting with 'Big Data 101 for Clinicians' - A One Day Workshop on 'EHR Analysis Using Big Data Tools' on 18th July 2019. We shall be organising a number of other technical workshops as well.

In addition, a number of companies will be demonstrating their technical capabilities in the healthcare field at the healthcare EXPO on 19th July 2019, where a series of exciting talks are scheduled.

This forms a primer for the Datathon held on the 20th to 21st July 2019 at the Saw Swee Hock School of Public Health at the National University of Singapore.

Join us to learn about the latest developments in Healthcare AI and how you can be part of this revolution!

WHO ARE ATTENDING?

- Clinicians and Allied Health Professionals
- Key Opinion Leaders In The Various Clinical Scientific Fields
- Computer and Data Scientists
- Bioinformaticians
- Healthcare Administrators
- Policy Makers
